Turkey Tracks and Predator Paws

Saturday, December 26th: 10:00am – 11:00am

Animal tracks tell the story of wildlife in the forest - where they go, what they eat, and who's trying to eat them. Come enjoy the story of the animals of Myles Standish by learning how to identify different species in the forest like deer, fox, coyote, rabbit, and of course turkey! On this fun and informative all-ages program we will learn how to tell what these animals are up to when no one is around by reading their tracks and what they mean. Meet at the Interpretive Center in the headquarters parking lot. **Free and open to the public!** Rain, snow, or icy trails cancels. For more information call (508) 866-2526.
